

Jesuit is seeking approval from the County of Sacramento to install lights in Marauder Stadium

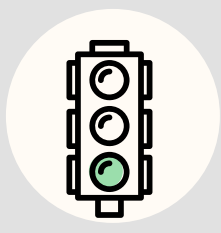

WHY LIGHTS?

Improve Health & Safety by minimizing risks associated with high afternoon temperatures for spectators and participants

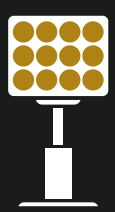

Reduce missed class time, streamline schedules by aligning with majority of California Interscholastic Federation (CIF) schools

Improve traffic congestion & parking due to overlapping events

ABOUT THE PROPOSAL

- The lights proposed will utilize modern LED technology which allows for very precise placement without light spilling out in all directions
- Adding lights is the only change being proposed. The project will not increase stadium size or sports complex amenities (such as sound systems)

GENERAL PROCESS TIMELINE

00

Fall 2021

- Use Permit PLNP2021-00262 submitted to County of Sacramento, Carmichael/Old Foothill Farms Community

01

April 2022

- Approved through the County's Design Review Advisory Committee
- Presented to the local public Community Planning Advisory Commission

02

Ongoing Discovery

- Analyze feedback from forums, meetings and conversations with multiple parties
- Listening to neighbors

Based on some of the feedback

- Adjusted the timing of meetings
- Shared our existing Good Neighbor communication portal and meeting dates via postcards and signage

03

Fall 2022 - Spring 2023

- California Environmental Quality Act (CEQA) will assess the potential environmental impacts of the project

04

Summer 2023

- Continuation of County process per their timeline
- Reviews
- Decisions
