

BYOD Recommended Devices 2018-2019

One of our goals in transitioning to a Bring Your Own Device program is to give more choice and flexibility to families. With that in mind, we have researched several devices and provided the information and recommendations below to help families make this decision. Some important items to consider are the operating system, keyboard type, storage space, mobility and price for a device with all the desired features.

* “Sample Devices” are examples of models that meet or exceed the minimum requirements. These devices are not the only models available to families.

Type	Pros	Cons	Sample Devices*
Apple MacBook / Air / Pro	<ul style="list-style-type: none"> - Long battery life - Familiar operating system - Easily accessible support 	<ul style="list-style-type: none"> - More expensive than other similar devices - Device-specific connections; more expensive to add additional equipment 	MacBook (~\$1,300) Macbook Air (~\$1,000) MacBook Pro (~\$1,300)
