

THEOLOGY

The overarching goal of the Theology Department is to form students who, through the study of theology, come to know more deeply God's love, hear more clearly Christ's call to be *Men for Others* and respond more generously and fully in a life of discipleship.

Our curriculum is developmentally appropriate and designed to lead each student into a deeper conversation about how to be a *Man for Others* in relationship with God, with himself and with those around him.

Required Courses
